..... APPROVAL..... OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is
understood that the amount of water herein granted is only a temporary allowance and
that the final water right obtained under this permit will be dependent upon the
period of use and the average number of livestock served from the waters of this
source. It is further understood that this right must allow for a reasonable lower-
ing of the static water level at permittee's well due to any other ground water
development in the area. The well shall be equipped with a 2-inch opening for
measuring depth to water. If well is flowing, a valve must be installed and main-
tained to prevent waste. The State retains the right to regulate the use of the
water herein granted at any and all times but does not take responsibility for the
use of the Federal range.

This Permit does not extend the permittee the right of ingress and egress on
public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit
holder obtain other permits from State, Federal, and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.0062..... cubic feet per second, or sufficient water to
water 200 head of cattle.
